What's new:

The Odyssey: Winds of Athena is a 2004 alternate history novel written by Harry Turtledove, taking place during World War II. Odysseus, who died at the end of The Odyssey, has gone to the afterlife of Hades during the Trojan War and then returned, looking for his wife, Penelope, and his sons. The story covers some twenty-five years of his life until his return. Publishing history The novel was initially serialized in eighteen parts in the magazine Analog Science Fiction and Fact from July through December 2004; the magazine published a paperback edition in June 2005, and it became available in trade paper in December 2005. Turtledove has expressed a desire to adapt the story as a movie in his blog. Jove Books published a trade paperback edition in February 2006, and Vintage released a mass market edition in October 2008. Plot After Odysseus' death, also known as the "lying down at Troy", the goddess Athena, in assuming his identity as Odysseus when he became maimed there, follows his soul to the Underworld in the Land of the Dead, Hades. He does not need to die at Troy to earn his rest in the underworld, but merely to renounce his role as a wartime commander of the Greek army. Likewise, the spirit of Helen also earns her rest, not from being dragged into the war by her abductor Paris but rather by eating a meal with the gods. Helen had the option of continuing her courtship of Menelaus, Odysseus' brother, or taking up with Paris. Turtledove, in his preface to The Saddlebag Letters to the New Yorker, says she eats a meal with the gods as he wrote it; few of the other writers he contacted could remember anything like this as the details of the story. The current status of Helen's body is ambiguous, as it came from many places at the time of the Trojan War and has not been found. Turtledove has said in interviews that he has always expected Helen to be eaten by dogs; he has always maintained that the Greeks did not find her to be anything other than a distant enemy, whom they

are lucky to have gotten rid of. Though Odysseus is dead, the other characters are also in Hades. Penelope is finding it difficult to hold out for her long-lost husband. He loses all ambition to return home and they therefore adapt to their marriage with no plans
